D'Etta O. and M. E. Morin to B. C. Davis and wife, w. deed, N. 35 feet of lot 5, block 2, East Prescott.

MAY STRIKE FLOW OF OIL VERY SOON

Indications Favorable
At The Del Rio
Plant

Drill Has Opened Up
Some Pockets Of
Gas

(From Saturday's Daily.)

There appears to be no longer little doubt in the minds of those who have lately visited the camp of the Yavapai Oil and Mining company, and who are familiar with the oil business in other states that oil in paying quantities will be encountered in the well now being sunk on the ground.

Especially is this true of the experts from California and Pennsylvania who have inspected the premises and who do not hesitate in making the statement that a flow of oil will certainly be struck before any great depth is reached.

A reliable party who recently returned from the scene of operations stated recently to a Journal-Miner man that the well was now down to a depth of about 550 feet, and making fair headway daily; that the drill recently passed through a hard line capping, in which were encountered a number of pockets of gas, which made the water boil like soap suds, into an oil sand which strongly smells of oil. The boring of the well is being carried on with energy and fair headway is being made.

The locations of the company covering 1,600 acres of land, are situated adjacent to the S. E. P. and P. railroad, about 7 miles north of Del Rio station. The company is principally composed of local and Jerome business men, and miners, and is amply financed for the purposes for which it was organized.

DISULAYED A GUN.

(From Friday's Daily.)

A. R. Dickey, who is the owner of a valuable group of mining claims in the Bradshaw mountains, was yesterday arrested by the sheriff's office on a warrant charging him with assault with a six-shooter. The arrest was made at his camp by a deputy sheriff, who escorted him to this city. He gave bonds for his appearance today before justice of the peace Keohane. The complaint upon which the warrant of arrest was based was sworn to by J. F. Gibbons, who was in partnership with the defendant in a lease on one of his mines. The hearing of the case will take place this afternoon at 2 o'clock in the local justice court.

**NEW SANTA FE MAIL CARS
WEIGH 105,000 POUNDS.**

The Santa Fe has just completed the construction of 38 steel mail cars which are being put into service on all parts of the system. The cars are the heaviest of the kind ever constructed, and without the interior equipment weigh 105,000 pounds. All the axles and beams are of steel, and the braces and woodwork are finished in steel. The cars were built according to special plans drawn by the Santa Fe engineers, and were submitted to the government for approval. The main line of the Santa Fe will be the first to be equipped with the new cars after which they will be distributed to every part of the system.

PROBATE MATTERS.

(From Saturday's Daily.)

Yesterday in the probate court H. M. Gibbs, administrator of the estate of W. M. Munds, deceased, filed a final account of his administration of the estate and Mrs. Cornelia A. Munds filed a petition asking that an order be made setting aside the entire estate to the widow of the deceased.

The court fixed July 9 as the date for the hearing of the settlement of the account and petition.

COPPER QUIET BUT CONTINUES STRONG

Marked Demand For
Prime Casting
Grades

Consumption Still Is
Keeping Pace With
Production

(From Saturday's Daily.)

Copper is quiet, but continues very strong. Lake is held at 18 1/2 to 19 cents per pound for August and September delivery; electrolytic for near by delivery is 18 1/2 to 18 3/4 cents; casting, 18 1/2 to 18 3/4 cents. There is a strong demand for prime grades of casting copper. The domestic situation is quiet at the moment, and with out special feature. Demand from European consumers continues strong. The recent activity of the foreign buying shows its effect in the copper exports for Europe, which are increasing steadily, says George L. Walker, in the Boston Commercial.

Producers generally do not look for a very large increase this year over the output of 1905. Meanwhile the metal is going into consumption as rapidly as it can be produced, and there are many indications that this condition will continue for several months to come.

Some activity has been shown in a few copper stocks during the past week, but it did not last, and the market relapsed into dullness and weakness, the latter not pronounced. There have been no important developments. The failure of the Utah Consolidated directors to increase the dividend rate has occasioned some unfavorable comment, and has induced some selling, not only of that stock, but of other coppers. While it has dropped only a little, its action has been weak. This has influenced the Boston list. Public interest is still lacking. Boston traders are doing scarcely anything in the coppers. New York has been responsible for most of the trading.

Deadly Serpent Bites.

are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy. Electric Bitters, the great restorative medicine, of which S. A. Brown, of Benetville, S. C., says: "They restored my wife to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles, and bladder disorders. Sold on guaranteed by all druggists. Price 50c.
